

Pressure + Level

SR301 Series Remote Seals

The SR301 series is a complete Remote Seal line, which is coupled on the pressure transmitters to meet different applications such as very high or very low temperatures, areas of difficult access or with too much vibration.

- SR301T: Flanged remote seal for general applications. The flush connection is optional.
- SR301E: Flanged remote seal with extension for general applications and it is very used when the tank wall is coated.
- SR301P: Pancake type remote seal especially used in applications with limited installation area. It may be supplied optionally with flush connection.
- SR301Q: Pancake remote seal with extension.
- SR301R: Threaded remote seal for general applications with a wide variety of threaded connections. Optionally it may be supplied with flush connection.
- SR301S: Sanitary remote seal especially designed for use in food industries and other applications where sanitary connections are required.
